o During Y10 Enterprise and work experience the students will spend one week tackling a business challenge in school, and in the other week they will be out of school at a work placement that they arrange beforehand. The business challenge will involve working with companies and organisations that come into school to present students with a real-life problem for them to research and produce a solution for.

o Enterprise Activities are when all students are given challenges to develop their essential personal skills. The challenges will include external visits and trips.
