

Year 11 Study Plan – Summer 2011

NOTICE FOR Year 11 ONLY. It shows where students should go for last minute preparation for exams. The preparation will be led by the teachers whose initials are shown. If a revision session clashes with an exam then students **MUST GO TO THE EXAM.**

These sessions are not a substitute for your own revision at home!

It is essential that students should carry their revision materials with them at all times. They will need this for when they have done the exam for a subject but still need to use the time appropriately. For example the last Spanish exam is on Thurs 26 May but students must still go to Spanish lessons until they are told they do not need to turn up for school. They must have work that they can do in those lessons.

Please note that students who have not completed ICT or any BTEC coursework have special sessions organised for catch-up sessions. Individual students will be told when they are to attend.
