

In your web browser, either type in the following link:

web.bournville.bham.sch.uk/onlineoptionschooser

or visit the school website and under Academy Life, choose Parent information and then Year 8 Options. Click on the link "[Online Options page](#)" and you will be taken to the following web page.

Click on the "Choose Options" link to start with your options choices. The "Guide For Parents" link is simply a copy of the guide you are now reading.

The next page you are presented with asks you a few details about your child, this is to ensure their choices are saved under the correct student for later reference. It is important that you provide the correct details, or else the system will not be able to find them and you won't be able to carry on to the choices page.

Unable to find student, please try again

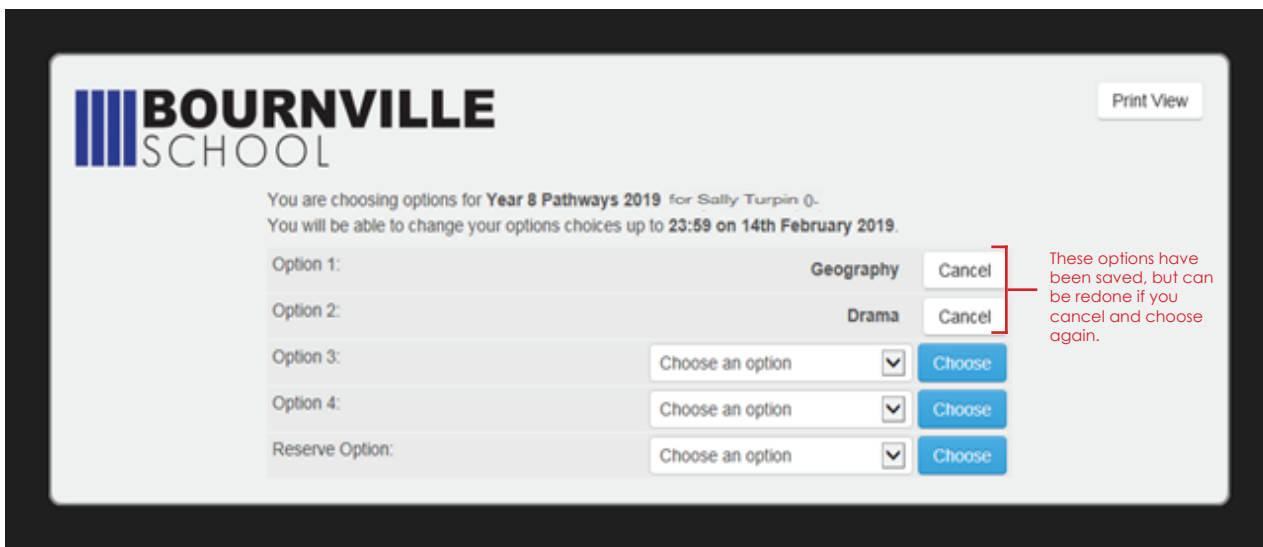

Once all the correct information is entered, press "Next".

Below is a standard selection list, the *name* and *form* of your child will appear in the text above, so you know you have the correct student to save the choices under.

The “*Print View*” button will give you a printer friendly version of your choices at the point in time that you press it.

Simply select one option from each drop-down list. After each choice, make sure to press the “*Choose*” button. Doing this will **save the choice**. You'll then see that the button text changes to “*Cancel*”, this means you can change your mind if you wish, up to a certain date, and simply choose a different subject and press “*Choose*” again to re-save your new choice.

Once you've chosen all your options, you should have a “*cancel*” button next to each one to say that you've saved each option. You can now either print this out using the “*Print View*” button or simply close down the web page as you have finished.

In the event that the courses you have chosen for your child do not fit into our option blocks once we have created them, please select a **FYgYfj Y Cdljcb**
