

Printing.

Year 1

Challenge:

To create a patterned design using Styrofoam printing.

The Journey:

- Control of equipment to make the imprinting
- Exploring different patterns and textures around us
- Use of rollers and control of these to make the print
- Identify their choice of primary or secondary colours
- Discuss and explore patterns (what do children like? What inspiration do they get from this?)

The final Piece:

A Styrofoam print of a pattern of their choice.

Success criteria:

To create a simple line drawing/pattern.

To show control of equipment.
