

Message from Mr Gurney, AAHT for Maths

Dear Parent/Carer

'Numerise are currently offering a Secondary Ready course, free of charge, to help students prepare for the start of their mathematical journey.

By practicing core number skills and ensuring fluency this will enable them to hit the ground running in September and move on to the more challenging concepts found in our KS3 curriculum.

Through Numerise you are able to track your child's progress and close any gaps in their current knowledge. To access this course simply sign up on <https://www.numerise.com/secondary-ready/>

Kind Regards

Bournville School
