

15<sup>th</sup> July 2022

Dear Parent/Carer,

I wanted to make you aware of some activities that are taking place next week. From Monday, we will be running a series of workshops including:

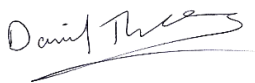

- Science activities
- Art activities
- Film club

These will take place each afternoon from Monday to Wednesday. on a rota for all students in Years 7, 8 and 9. Students in Year 10 will have a separate event on Wednesday afternoon. Thursday will be a normal day for all students, but we will hold additional end of year assemblies for all year groups.

I wrote to you earlier this week to inform you that students could wear their PE kit next week. In addition to this, could I please ask that you make sure students have a sun hat, sun cream and a water bottle next week. We are keen to make sure students are well-equipped for the warm weather.

Thank you for your support with this.

Yours faithfully

Mr D Thomas  
Vice Principal
