Student recommendation:

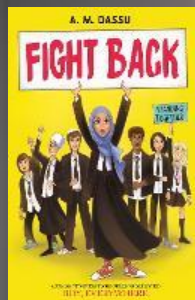

Mrs Healy recommends 'The Midnight Library': 'Imagine if you could undo everything you regret in life and try out the other lives you might have lived: what is the best way to live?'

Year 9 recommend 'The Curious Incident of the dog in the night-time': 'This is a mystery story that's easy to read. The main character is autistic which I liked because I haven't read a book with an autistic character before.'

Dassu: Seeing yourself depicted in a story gives you a sense of belonging, a sense of place. You feel valued, however, only when representation is respectful. It's important that readers see through a window that accurately depicts life. Windows into the lives of others help us to understand the world and experience its beautiful diversity.
