

HEALTH and SOCIAL CARE

Subject Vision

BTEC Tech Award Health and Social Care will give students an insight into some aspects of the health and social care environment, ranging from how the human develops from birth to death to different types of support that might be used, and to see how care values are expressed. The course is a vocational qualification which takes an engaging, practical and inspiring approach to learning and assessment.

Aims:

- The Award gives learners the opportunity to develop sector-specific knowledge and skills such as:
- Interpreting data to assess an individual's health
- designing a plan to improve an individual's health and wellbeing
- attitudes that are considered most important in health and social care, including the care values that are vitally important in the sector, and the opportunity to practise applying them
- knowledge that underpins effective use of skills, process and attitudes in the sector such as human growth and development, health and social care services, and factors affecting people's health and wellbeing
